	Synthetic Materials	12	Rubber Gymnasium Floor

JFB Hart Coatings, Inc.

Substrate: *Concrete*

HP-105 Gray

HP-105 Clear

HP-105 Gray Base Coat
HP-105 Clear Top Coat

HP-105 Green
HP-105 Clear Top Coat

Benefits & Features

- Water-based products that are virtually odorless with low VOCs
- Direct to concrete – no primer needed
- Outstanding slip co-efficient of friction (GripLok & GripLok Gloss available for increase slip resistance)
- Interior and exterior applications
- Easier to clean and maintain
- Protects from freeze and thaw damage
- Increases product longevity
- Anti-graffiti systems
- Available in high gloss, satin and matte sheens as well as clear and colors
- Breathable coatings (perm rating 2.43)
- Excellent chemical, abrasion, stain and impact resistance with high flexibility
- LEED credits available

JFB Hart Coatings, Inc.

Substrate: *Metal*

Benefits & Features

- Water-based products that are virtually odorless with low to zero VOCs
- Direct to metal – no primer needed
- Outstanding slip co-efficient of friction
- Outstanding UV protector
- Interior and exterior applications
- Easier to clean and maintain
- Creates moisture barrier that inhibits oxidation
- Increases product longevity
- Anti-graffiti systems
- Available in high gloss, satin and matte sheens as well as clear and colors
- Excellent chemical, abrasion, stain and impact resistance with high flexibility
- LEED credits available

JFB Hart Coatings, Inc.

Substrate: *Wood*

HP-105 Gloss Clear

HP-105 White

HP-300 Satin Clear

HP-105 Gloss Red, Black, White with
HP-105 Clear Top Coat

HP-300 Satin Clear

Benefits & Features

- Water-based products that are virtually odorless with low to zero VOCs
- Direct to wood – no primer needed – quick dry sealer can be used as first coat
- Outstanding slip co-efficient of friction
- Interior and exterior applications
- Easier to clean and maintain
- Excellent flexibility
- Increases product longevity
- Anti-graffiti systems
- Available in high gloss, satin and matte sheens as well as clear and colors
- Breathable coatings (perm rating 2.43)
- Excellent chemical, abrasion, stain and impact resistance
- LEED credits available

JFB Hart Coatings, Inc.

Substrate: *Fiberglass*

HP-105 Black

HP-105 Various Colors

HP-105 Various Colors

Benefits & Features

- Water-based products that are virtually odorless with low to zero VOCs
- Direct to fiberglass – no primer needed
- Outstanding flexibility
- Interior and exterior applications
- Easier to clean and maintain
- Excellent UV protection
- Increases product longevity
- Anti-graffiti systems
- Available in high gloss, satin and matte sheens as well as clear and colors
- Breathable coatings (perm rating 2.43)
- Excellent chemical, abrasion, stain and impact resistance
- LEED credits available

JFB Hart Coatings, Inc.

Substrate: *EIFS/Stucco/Foam/Synthetic Materials*

HP-105 White

HP-105 Brown, Blue & White

HP-105 White

HP-300 Satin Clear

Benefits & Features

- Water-based products that are virtually odorless with low to zero VOCs
- Direct to substrates – no primer needed
- Protects the underlying substrate
- Interior and exterior applications
- Easier to clean and maintain
- Excellent flexibility
- Increases product longevity
- Anti-graffiti systems
- Excellent UV protection and color retention
- Available in high gloss, satin and matte sheens as well as clear and colors
- Breathable coatings (perm rating 2.43)
- Excellent chemical, abrasion, stain and impact resistance
- LEED credits available

JFB Hart Coatings, Inc.

Substrate: *Ceramic / Stone (Tile & Grout)*
